

## HONDA SUPPORTED ONLINE OFF ROAD TOURS LAUNCH NEW OPERATIONS

Online Off Road Tours have launched their new operations and website that are now functioning independently of the Albury, VIC based Dealership they were previously affiliated with (Online Motorcycles).

The company will continue to provide high quality, hugely popular off road motorcycle tours into the Victorian High Country.

Tour operator Rod Lay confirmed that they are thrilled to be keeping the name Online Off Road Tours in light of the fact that the Dealership has gone into receivership.

“We’ve put a fair bit of work into advertising the brand and customers are familiar with the name, which we think is pretty catchy,” he said.

“We’ve also strengthened our ties with all business partners, including Honda Australia. We will also continue our mutually beneficial affiliation with the Honda Riders Club of Australia.”

The new website - [www.onlineoffroadtours.com.au](http://www.onlineoffroadtours.com.au) - includes comprehensive tour information, tips and tricks as well as what’s new page.

The operation boasts a professional set up including multiple sweep riders on each tour, backed up by a qualified chef, 4WD support vehicle with ambulance officer, and advanced communications equipment.

Tours take in some of the best tracks Victoria’s north east has to offer, with some itineraries also offering advanced coaching from a level 2 qualified coach.

“Breaking off into our own independent operation will make us stronger, and we are looking forward to another fantastic season,” Rod said.

“We’ve only got only limited places available for each tour this year so customers will need to be quick to get a seat. With our chef cooking fillet mignon on the last couple of tours, it’s getting hard to seal a spot!”
